CASSIDY MARTIN

The first semester of college is a time of transition and growth as students spread their wings and begin to navigate their academic careers, discover new interests, and make lasting memories. Cassidy Martin, an honors student from Acworth who plans to pursue a degree in International Business, shares what made her first semester as an Owl meaningful.

"I received my acceptance to KSU and the Honors College in September of 2020, finished high school in March of 2021, and began taking classes in the Summer. All of this after being home-schooled my entire life, it's safe to say that I was excited to begin university; and boy did I jump into the deep end. To any prospective or incoming students, I want to say: please get involved. I have never been happier than when I'm working athletics events or running around getting Brand Ambassador content. I have such great pride in this University and even more so because I have a hand in what happens here."

You've got a big decision. See for yourself why KSU is the ideal choice.

CAMPUS TOURS

Our in-person campus tours are designed specifically for students and their families. Led by a tour guide, the campus tour highlights academic programs, housing, dining, and admissions. FAFSA stands for the Free Application for Federal Student Aid. It's an application that uses your tax information (and, if you are a dependent student, tax information from your parent[s]) to determine your eligibility for various federal financial aid, including grants, loans, federal work-study programs, and more. If you think there's a chance you will need financial aid to afford college, you should file a FAFSA.
