LETTER OF RECOMMENDATION

As the Head of the Department of Electronics and Communication Engineering, it gives me great pleasure to write this recommendation letter for **Mr. SYED FAIZAN MOINUDDIN**, a student of **Electronics and Communication Engineering** for admission into the graduate program at your renowned university. I have thought him **Electromagnetic Theory and Transmission Lines** and **Digital Image Processing**, my interaction with him during the course had given me abundant scope to evaluate his logical and personal capabilities.

During the past four years I had ample opportunity to evaluate him. I have mentored him on his mini project **R.F.I.D BASED SMART LIBRARY CARD SYSTEM**. I have seen his dedication, hard work and keenness to do the project and also his skills in successfully accomplishment of the project. I have observed that he has an open and fertile mind, always ready to accept new concepts and new principles. It is this quality which enables him to enhance his creative abilities to think of new approaches to solving problems. His thorough grasp of the subject and his methodically meticulous approach to any problem has cast an indelible impression in me

I am impressed by his diligence, punctuality and sincerity. His brilliant communication skills, strong sense of dedication towards his work and his keenness to learn new subjects make him a meritorious prospect for graduate studies.

With all these positive attributes, I am sure that **Mr. SYED FAIZAN MOINUDDIN** will prove himself a worthy candidate for masters program and hence I strongly recommend him for admission in your university.

I wish him good luck for his future endeavors.

Abdul Wasey Mudasser
